Manufacturers Announce Endorsement of Eric Koch in House District 65

Indianapolis— The Indiana Manufacturers Association today announced its endorsement of Representative Eric Koch for election to the Indiana House of Representatives in District 65.

"Eric Koch's 100 percent voting record for the interests of manufacturing proves his commitment to economic growth and job creation in the South Central Indiana district. That commitment, though evidenced in his voting record, is truly a commitment to the working people of his district and the businesses which make up the employment base in that area," said IMA Vice President Ed Roberts.

Indiana remains the number-one manufacturing state in America in terms of the percentage of jobs, percentage of wages and percentage of the product of the state.

"Growth in our traditional manufacturing base would mean more good jobs for more people," Roberts noted.

"Eric Koch has shouldered the burden of helping to lift Indiana out of the depths of the recent recession. The work is not done. The people of House District 65 need Eric Koch back in the House to continue the quest for economic growth and job creation so that Hoosiers may prosper," continued Roberts.

The Indiana Manufacturers Association, on behalf of its members and those manufacturers who provide thousands of jobs in House District 65, encourage voters in the district to return Eric Koch to the Indiana House.
